#### Flynn PRAVDA Article

Moscow TASS International Service in English 0604 GMT 1 September 1964--I

(Text) Moscow--PRAVDA today publishes an article by Elizabeth Gurley Flynn on the 45th anniversary of the Communist Party of the United States. She tells about the history of the establishment of the party and the glorious road it has traversed in 45 years. The author writes that the work of American communists is not easy. Their phones at home and at work are tapped. FBI agents follow them everywhere. Their mail is opened and read. Party members under FBI surveillance lose their jobs. Spies are infiltrated into the party to testify against communists at trials.

Since 1948, the author of the article points out, the U.S. Communist Party has had to fight for life in the grips of the Smith, McCarran, and Landrum-Griffin acts. Like many other progressives, the members of the party were baited and persecuted by the McCarthy men, members of the Un-American Activities Committee, and the like, but the U.S. Communist Party, Flynn said, held out against external and internal enemies, pursuing a true course in domestic and foreign policies.

At present, the author of the article goes on to say, the U.S. Communist Party is mustering its forces and all people under its influence to defeat Goldwater.

The party has taken a firm stand on the views of the Chinese leaders. It supports the peaceful foreign policy of the CPSU and other communist parties aimed at disarmament, peaceful coexistence, and abolition of colonialism.

USSR INTERNATIONAL AFFAIRS

The communists of the United States hold that acceptance of the irresponsible policy of the Chinese leaders, which is reminiscent of Goldwater's views, might lead to a world catastrophe. And if there still are any doubts in the liberal and leftwing circles in the United States about the position of the Communist Party of China, they are disappearing now when the Chinese leader approve of Goldwater's nomination.

In contrast to the attitude of the U.S. Communist Party, the U.S. communists feel a new surge of energy in their struggle for peace, democracy, and socialism.
